**Chuck Carlson, CFA**  
**Chief Executive Officer**

**JANUARY 19, 2026**

# The Dow Theory

## DOW JONES INDUSTRIAL AVERAGE

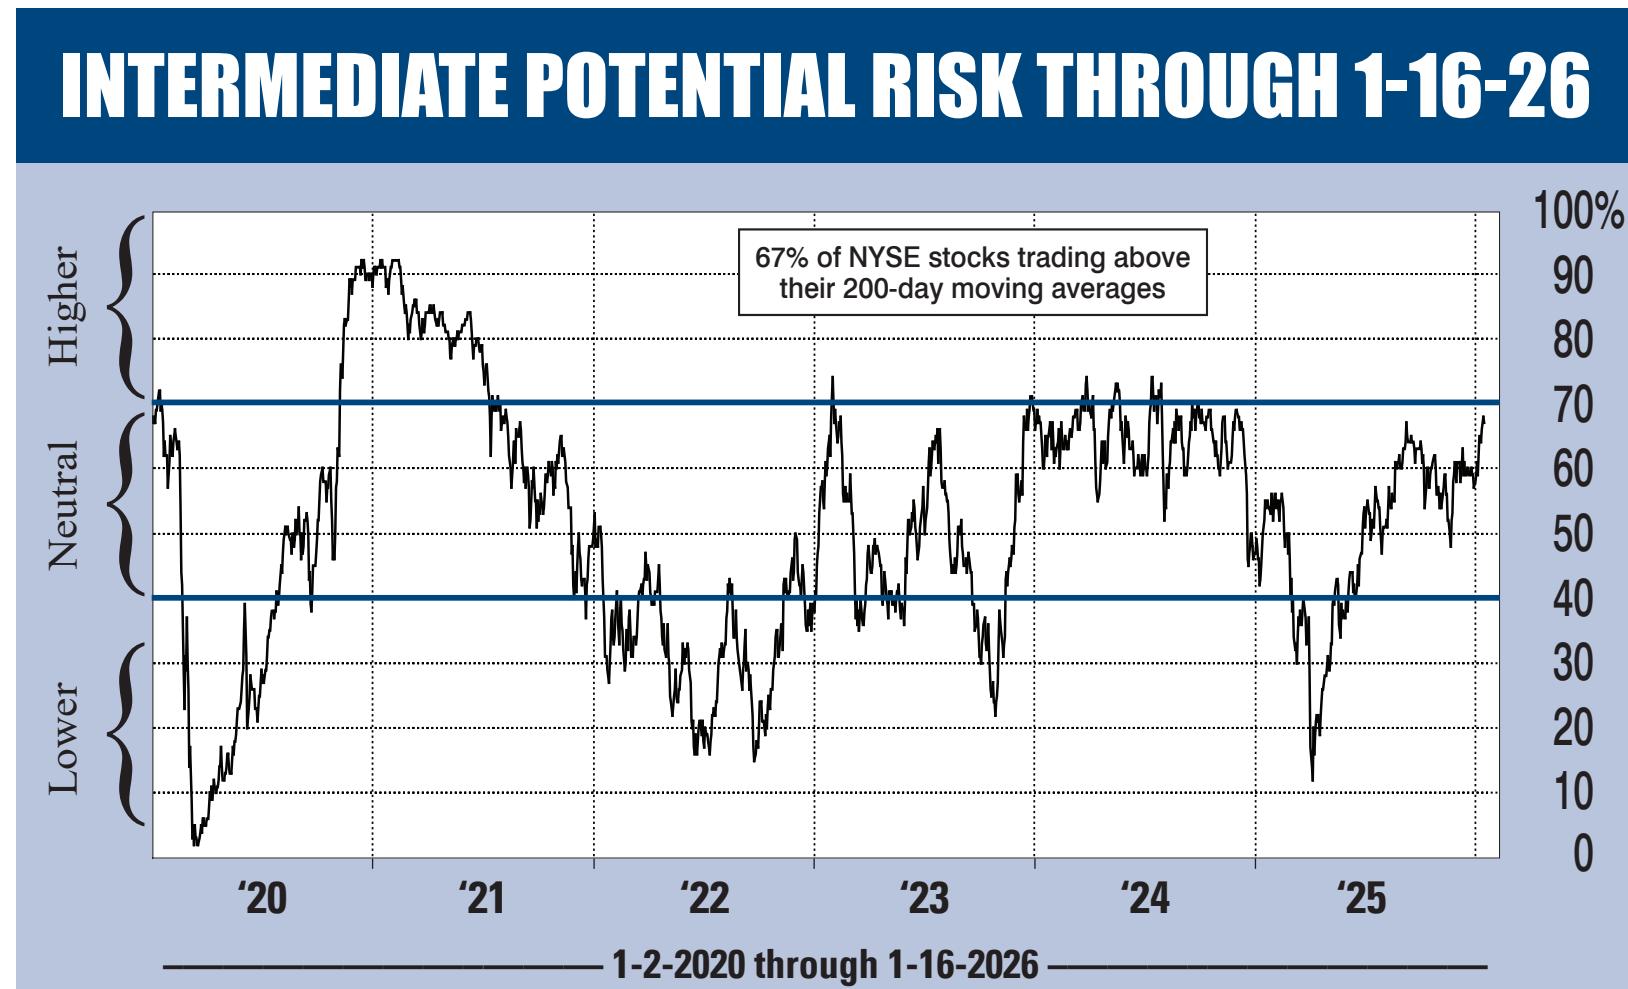

## DOW JONES TRANSPORTATION AVERAGE

January 1, 2024 through January 16, 2026

**Dow Jones Industrial Average:** Invented by Charles Dow in 1895, the Dow Jones Industrial Average is a price-weighted average of 30 significant U.S. stocks traded on the New York Stock Exchange and the Nasdaq.

**Dow Jones Transportation Average:** is a price-weighted average of 20 U.S. transportation stocks.

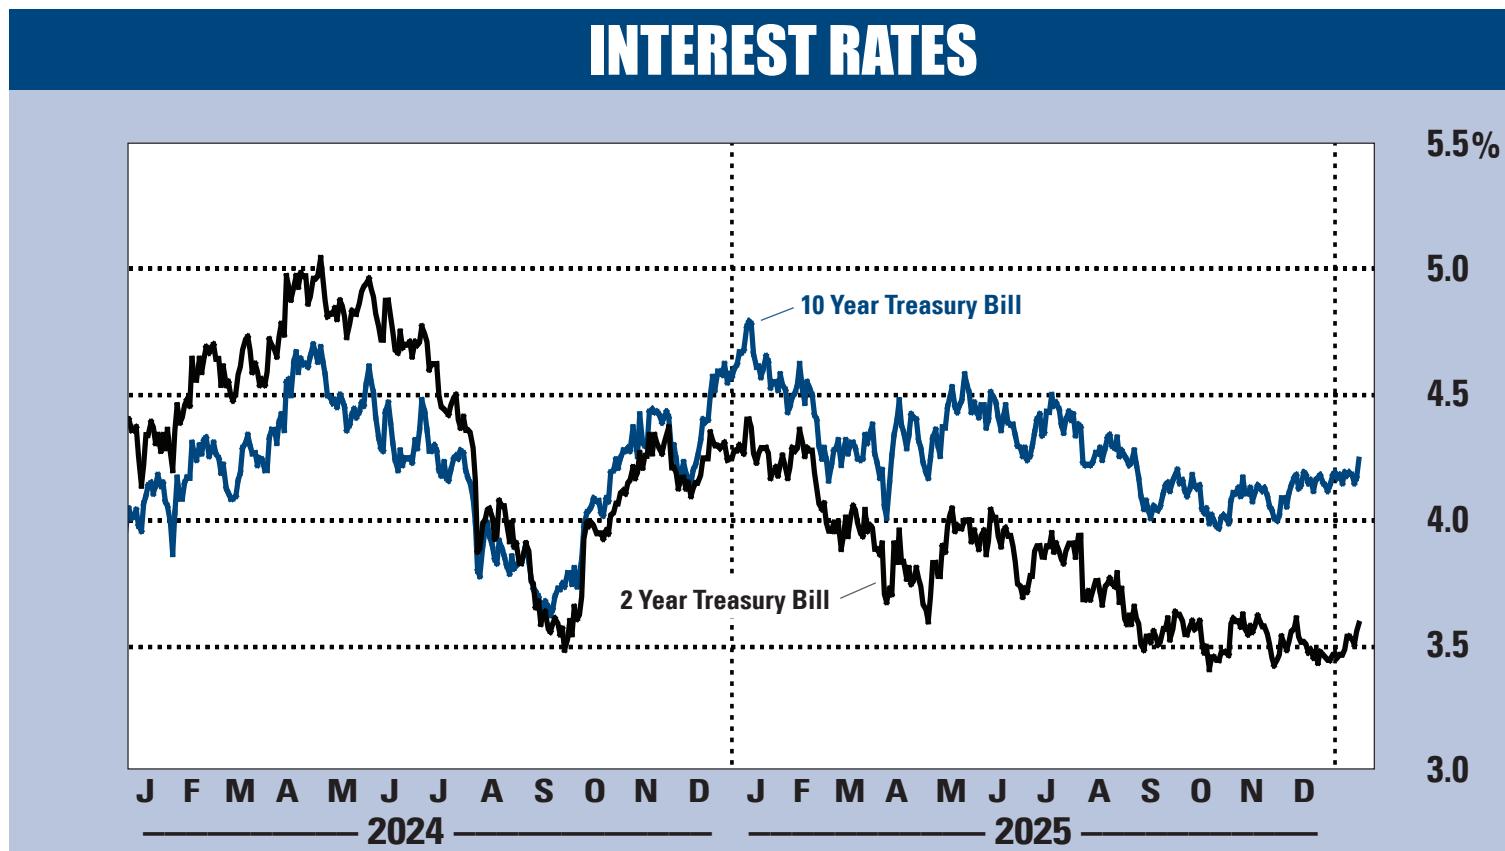

The Intermediate Potential Risk chart reflects the percentage of stocks on the New York Stock Exchange trading above their 200-day moving average. When more than 70% of the stocks on the NYSE are trading above their 200-day moving average, stocks are said to be in "higher risk" territory and due for a correction. Conversely, when less than 40% of the stocks on the New York Stock Exchange are trading above their 200-day average, stocks are in low-risk territory.

# Risks

- 1. Interest Rates**
- 2. Inflation**
- 3. Corporate Profits**

# Interest Rates

January 1, 2024 through January 16, 2026

# 5 Favorites For 2026

- **Alphabet (\$330; GOOGL)**
- **Amazon (\$239; AMZN)**
- **Amphenol (\$154; APH)**
- **Micron Technology (\$362; MU)**
- **KLA (\$1,568; KLAC)**

# 5 Favorite Small & Midcap Stocks

- **Comfort Systems (\$1,119; *FIX*)**
- **Enova Int'l (\$157; *ENVA*)**
- **Flowserve (\$77; *FLS*)**
- **Northrim BanCorp (\$29; *NRIM*)**
- **Progyny (\$24; *PGNY*)**

**Best Ideas Composite** contains fully discretionary Best Ideas commission accounts and, for comparison purposes, is measured against a custom blended benchmark of 50/50 Russell 1000 and 2000 Indices, as calculated monthly by Horizon. The Best Ideas strategy is an all-equity portfolio consisting of Horizon's favorite stocks that Horizon believes offer the best total-return potential over the next 12 months. The portfolio is typically 40% to 65% large-cap stocks and 35% to 60% small and midcap stocks. Initial individual positions are approximately equal-weighted and typically are not allowed to account for more than 5% of an investor's portfolio. Certain sectors are overweighted or underweighted in the portfolio based on opportunities available in individual stocks, although it is unlikely that one sector will account for more than 40% of the total portfolio. While the portfolio may be 100% invested in stocks, cash and fixed income investments may be held depending on macro market conditions and the availability of attractive stock opportunities. The Russell 1000 Index is an unmanaged total-return index designed to measure the performance of the largest 1,000 companies in the Russell 3000 Index of the 3,000 publicly held U.S. companies in terms of market capitalization. The Russell 2000 Index is an unmanaged total-return index designed to measure the performance of the smallest 2,000 companies in the Russell 3000 Index of the 3,000 publicly held U.S. companies in terms of market capitalization.

Horizon Investment Services, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. Horizon Investment Services, LLC has been independently verified for the periods September 1, 2000 through December 31, 2024.

A firm that claims compliance with the GIPS® standards must establish policies and procedures for complying with all the applicable requirements of the GIPS® standards. Verification provides assurance on whether the firm's policies and procedures related to composite maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS® standards and have been implemented on a firm-wide basis.

The Best Ideas composite has had a performance examination for the periods July 31, 2003 through December 31, 2024. The verification and performance examination reports are available upon request. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Horizon Investment Services, LLC is a registered investment adviser with the United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The firm maintains a complete list of composite descriptions, which is available upon request.

The composite performance returns include all fully discretionary active and terminated commission accounts for the strategy and exclude any accounts with significant client-imposed investment restrictions.

The U.S. Dollar is the currency used to express performance. All composite performance returns include the reinvestment of all income. Gross composite performance returns are asset-weighted total-return figures. Beginning in October 2019, gross composite performance returns reflect accounts that do not pay any brokerage commissions. Prior to October 2019, gross composite performance returns were after brokerage commissions paid or the highest asset-based brokerage fee of 0.20%, applied monthly; which include brokerage commissions and custodial service fees, but do not reflect the payment of management fees. Net composite performance returns are further reduced by the highest applicable annual management fee of 1.25%, applied monthly. Prior to October 2019, bundled accounts paid a fee based on a percentage of assets under management which includes all charges for trading costs, portfolio management, custody, and other administrative fees. Beginning in October 2019, the asset-based brokerage fee portion of the bundled accounts only impact the billable mutual fund holdings in the strategy which make up an immaterial part of the strategy. The annual composite dispersion presented is equal-weighted standard deviation of gross returns calculated for the accounts in the composite the entire year. The 3-year standard deviation is the equal-weighted ex-post standard deviation of gross returns annualized over three years. Policies for valuing investments, calculating performance, and preparing GIPS® Reports are available upon request.

The investment management fee schedule for the composite is 1.25% on the first \$2 million, 1.10% on the next \$2 million, 0.95% on the next \$2 million and 0.80% on the remainder. Actual investment advisory fees incurred by clients may vary depending on fee schedule and portfolio size. Management fee schedules are available upon request or may be found in Part 2A of Horizon Investment Services' Form ADV.

The Best Ideas Composite was created and inceptioned July 31, 2003.
